

## Entrepreneurship

We as youth have FANTASTIC ideas that we want to see implemented! We all dream of being rich and famous and being change artistes. All this is keenly watched by the actual change artistes who sit back bemused and urge us to mellow down our youthful vigour!

The older generation has valuable information and experience that needs to be shared to the youth. This is achievable through a mentorship process. WYC® is keen to see young entrepreneurs through:

- Incubation of innovative and growth-oriented youth business enterprises
- Creating linkages of youth enterprises to lending institutions and related organizations

We at WYC® are constantly looking for partners who have the resources and are willing plant business enterprises run by youth. If you are looking for excitement and challenge, then WYC® is the place to drop some not-so-few coins to improve livelihoods.
